SUBJECT INDEX

Automation

Digital Charts for Marine Construction Activities: MicroCAD Approach, T. K. Koo and Y. B. Aw, SU Feb. 90 p30-41.

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

Private Utility Surveying Engineering: Total Station Experience, Nicholas B. Day, SU Aug. 90 p163-178.

Thriving on Change: Model for Success in the 1990s, Gene V. Roe, SU Feb. 90 p57-68.

Bench marks

Monitoring Land Subsidence in Sacramento Valley, California, Using GPS, J. C. Blodgett, M. E. Ikehara and G. E. Williams, SU May 90 p112-130.

Benefit cost analysis

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

California

Monitoring Land Subsidence in Sacramento Valley, California, Using GPS, J. C. Blodgett, M. E. Ikehara and G. E. Williams, SU May 90 p112-130.

Orange County's Conversion to NAD 83, John Canas, SU Aug. 90 p155-162.

Cartography

Contouring—Simulation of Cartographer's Procedure, B. Shmutter and Y. Doytsher, SU Nov. 90 p193-203.

Charts

Digital Charts for Marine Construction Activities: MicroCAD Approach, T. K. Koo and Y. B. Aw, SU Feb. 90 p30-41.

Computer applications

Entity-Coded Neutral-File Format for Integrating Data Collectors, T. K. Koo and M. K. Lim, SU May 90 p93-103.

GIS: Useful Tool or Expensive Toy? Roger B. Arend, SU May 90 p131-138.

Restrictions in Geodetic Networks, A. Grimm-Pitzinger, SU Aug. 90 p149-154.

Computer graphics

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

Computer hardware

Trends in Geographic Information System Technology, John M. Smyrnew, SU May 90 p105-111.

Computer software

GIS: Useful Tool or Expensive Toy? Roger B. Arend, SU May 90 p131-138.

Trends in Geographic Information System Technology, John M. Smyrnew, SU May 90 p105-111.

Computerization

Private Utility Surveying Engineering: Total Station Experience, Nicholas B. Day, SU Aug. 90 p163-178.

Computerized design

Digital Charts for Marine Construction Activities: MicroCAD Approach, T. K. Koo and Y. B. Aw, SU Feb. 90 p30-41.

Construction management

Contractor Staking: Saving Public-Works Dollars, Thomas R. Warne, SU May 90 p82-92.

Contours

Contouring—Simulation of Cartographer's Procedure, B. Shmutter and Y. Doytsher, SU Nov. 90 p193-203.

Contracting

Contractor Staking: Saving Public-Works Dollars, Thomas R. Warne, SU May 90 p82-92.

Contractors

Contractor Staking: Saving Public-Works Dollars, Thomas R. Warne, SU May 90 p82-92.

Conversion

Orange County's Conversion to NAD 83, John Canas, SU Aug. 90 p155-162.

Cost effectiveness

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

Private Utility Surveying Engineering: Total Station Experience, Nicholas B. Day, SU Aug. 90 p163-178.

Cost savings

Contractor Staking: Saving Public-Works Dollars, Thomas R. Warne, SU May 90 p82-92.

Curvature

Kinematic Positioning—Efficient New Tool for Surveying, K. P. Schwarz, SU Nov. 90 p181-192.

Data collection

Entity-Coded Neutral-File Format for Integrating Data Collectors, T. K. Koo and M. K. Lim, SU May 90 p93-103.

Data collection systems

Digital Charts for Marine Construction Activities: MicroCAD Approach, T. K. Koo and Y. B. Aw, SU Feb. 90 p30-41.

Entity-Coded Neutral-File Format for Integrating Data Collectors, T. K. Koo and M. K. Lim, SU May 90 p93-103.

Data communication

Entity-Coded Neutral-File Format for Integrating Data Collectors, T. K. Koo and M. K. Lim, SU May 90 p93-103.

Data systems

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

Database management systems

Trends in Geographic Information System Technology, John M. Smyrnew, SU May 90 p105-111.

Deformation

Study of Temperature Effect on Behavior of Structures, Bassam Saleh and Pierre A. Blum, SU Feb. 90 p1-12.

Developing countries

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Digital mapping

Contouring—Simulation of Cartographer's Procedure, B. Shmutter and Y. Doytsher, SU Nov. 90 p193-203.

Digital techniques

Digital Charts for Marine Construction Activities: MicroCAD Approach, T. K. Koo and Y. B. Aw, SU Feb. 90 p30-41.

Dilatancy

Study of Temperature Effect on Behavior of Structures, Bassam Saleh and Pierre A. Blum, SU Feb. 90 p1-12.

Distance measuring equipment

Modeling of Stadia Surveying with Incomplete Intercepts, Said M. Easa, SU Aug. 90 p139-148.

Documentation

Draft Right-of-Way Guide, Task Committee on Right-of-Way of the American Society of Civil Engineers, SU Aug. 88 p131-142.

Droughts

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Easements

DraftbRight-of-Way Guide, Task Committee on Right-of-Way of the American Society of Civil Engineers, SU Aug. 88 p131-142.

Economic development

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Efficiency

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

Elevation

Monitoring Land Subsidence in Sacramento Valley, California, Using GPS, J. C. Blodgett, M. E. Ikehara and G. E. Williams, SU May 90 p112-130.

Engineering firms

Thriving on Change: Model for Success in the 1990s, Gene V. Roe, SU Feb. 90 p57-68.

Evaluation

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

Facilities

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

Frames

Important Parameters Used in Geodetic Transformations, Tomás Soler and Larry D. Hothem, SU Nov. 89 p414-417.

Geodesy

GPS As Fast Surveying Tool, J. David Newcomer, SU May 90 p75-81.

Important Parameters Used in Geodetic Transformations, Tomás Soler and Larry D. Hothem, SU Nov. 89 p414-417.

Geodetic surveys

GPS As Fast Surveying Tool, J. David Newcomer, SU May 90 p75-81.

Important Parameters Used in Geodetic Transformations, Tomás Soler and Larry D. Hothem, SU Nov. 89 p414-417.

Kinematic Positioning—Efficient New Tool for Surveying, K. P. Schwarz, SU Nov. 90 p181-192.

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Orange County's Conversion to NAD 83, John Canas, SU Aug. 90 p155-162.

Restrictions in Geodetic Networks, A. Grimm-Pitzinger, SU Aug. 90 p149-154.

Geographic information systems

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

GIS: Useful Tool or Expensive Toy? Roger B. Arend, SU May 90 p131-138.

Important Parameters Used in Geodetic Transformations, Tomás Soler and Larry D. Hothem, SU Nov. 89 p414-417.

Orange County's Conversion to NAD 83, John Canas, SU Aug. 90 p155-162.

Trends in Geographic Information System Technology, John M. Smyrnew, SU May 90 p105-111.

Global positioning

GPS As Fast Surveying Tool, J. David Newcomer, SU May 90 p75-81.

Kinematic Positioning—Efficient New Tool for Surveying, K. P. Schwarz, SU Nov. 90 p181-192.

Monitoring Land Subsidence in Sacramento Valley, California, Using GPS, J. C. Blodgett, M. E. Ikehara and G. E. Williams, SU May 90 p112-130.

Orange County's Conversion to NAD 83, John Canas, SU Aug. 90 p155-162.

Reliability Analysis of Phase Observations in GPS Baseline Estimation, Z. F. Biacs, E. J. Krakiwsky and D. Lapucha, SU Nov. 90 p204-224.

High technology

GIS: Useful Tool or Expensive Toy? Roger B. Arend, SU May 90 p131-138.

Thriving on Change: Model for Success in the 1990s, Gene V. Roe, SU Feb. 90 p57-68.

Highway construction

Contractor Staking: Saving Public-Works Dollars, Thomas R. Warne, SU May 90 p82-92.

Hydrographic surveys

Digital Charts for Marine Construction Activities: MicroCAD Approach, T. K. Koo and Y. B. Aw, SU Feb. 90 p30-41.

Information management

Thriving on Change: Model for Success in the 1990s, Gene V. Roe, SU Feb. 90 p57-68.

Information systems

Entity-Coded Neutral-File Format for Integrating Data Collectors, T. K. Koo and M. K. Lim, SU May 90 p93-103.

Interactive graphics

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

Interactive systems

Entity-Coded Neutral-File Format for Integrating Data Collectors, T. K. Koo and M. K. Lim, SU May 90 p93-103.

International development

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Interpolation

Contouring—Simulation of Cartographer's Procedure, B. Shmutter and Y. Doytsher, SU Nov. 90 p193-203.

Kinematics

GPS As Fast Surveying Tool, J. David Newcomer, SU May 90 p75-81.

Kinematic Positioning—Efficient New Tool for Surveying, K. P. Schwarz, SU Nov. 90 p181-192.

Land surveys

Modeling of Stadia Surveying with Incomplete Intercepts, Said M. Easa, SU Aug. 90 p139-148.

Management

Thriving on Change: Model for Success in the 1990s, Gene V. Roe, SU Feb. 90 p57-68.

Management planning

Thriving on Change: Model for Success in the 1990s, Gene V. Roe, SU Feb. 90 p57-68.

Mapping

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

GIS: Useful Tool or Expensive Toy? Roger B. Arend, SU May 90 p131-138.

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Professional Surveyor: View of Future, James P. Weidener, SU Feb. 90 p42-46.

Thriving on Change: Model for Success in the 1990s, Gene V. Roe, SU Feb. 90 p57-68.

Trends in Geographic Information System Technology, John M. Smyrnew, SU May 90 p105-111.

Marine engineering

Digital Charts for Marine Construction Activities: MicroCAD Approach, T. K. Koo and Y. B. Aw, SU Feb. 90 p30-41.

Mathematical models

Kinematic Positioning—Efficient New Tool for Surveying, K. P. Schwarz, SU Nov. 90 p181-192.

Restrictions in Geodetic Networks, A. Grimm-Pitzinger, SU Aug. 90 p149-154.

Measurement

Study of Temperature Effect on Behavior of Structures, Bassam Saleh and Pierre A. Blum, SU Feb. 90 p1-12.

Measuring instruments

Study of Temperature Effect on Behavior of Structures, Bassam Saleh and Pierre A. Blum, SU Feb. 90 p1-12.

Microcomputers

Digital Charts for Marine Construction Activities: MicroCAD Approach, T. K. Koo and Y. B. Aw, SU Feb. 90 p30-41.

Modeling

Modeling of Stadia Surveying with Incomplete Intercepts, Said M. Easa, SU Aug. 90 p139-148.

Monuments

Draft Right-of-Way Guide, Task Committee on Right-of-Way of the American Society of Civil Engineers, SU Aug. 88 p131-142.

Motion

Study of Temperature Effect on Behavior of Structures, Bassam Saleh and Pierre A. Blum, SU Feb. 90 p1-12.

Numerical analysis

Reliability Analysis of Phase Observations in GPS Baseline Estimation, Z. F. Biacs, E. J. Krakiwsky and D. Lapucha, SU Nov. 90 p204-224.

Parameters

Important Parameters Used in Geodetic Transformations, Tomás Soler and Larry D. Hothem, SU Nov. 89 p414-417.

Photogrammetry

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Platting

Draft Right-of-Way Guide, Task Committee on Right-of-Way of the American Society of Civil Engineers, SU Aug. 88 p131-142.

Positioning

Kinematic Positioning—Efficient New Tool for Surveying, K. P. Schwarz, SU Nov. 90 p181-192.

Private sector

Private Utility Surveying Engineering: Total Station Experience, Nicholas B. Day, SU Aug. 90 p163-178.

Productivity

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

Private Utility Surveying Engineering: Total Station Experience, Nicholas B. Day, SU Aug. 90 p163-178.

Professional practice

GIS: Useful Tool or Expensive Toy? Roger B. Arend, SU May 90 p131-138.

Professional role

Professional Surveyor: View of Future, James P. Weidener, SU Feb. 90 p42-46.

Public welfare

Professional Surveyor: View of Future, James P. Weidener, SU Feb. 90 p42-46.

Public works

Contractor Staking: Saving Public-Works Dollars, Thomas R. Warne, SU May 90 p82-92.

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

Reliability analysis

Reliability Analysis of Phase Observations in GPS Baseline Estimation, Z. F. Biacs, E. J. Krakiwsky and D. Lapucha, SU Nov. 90 p204-224.

Remote sensing

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Resource management

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Right of way

Draft Right-of-Way Guide, Task Committee on Right-of-Way of the American Society of Civil Engineers, SU Aug. 88 p131-142.

Satellite mapping

Orange County's Conversion to NAD 83, John Canas, SU Aug. 90 p155-162.

Satellites

Important Parameters Used in Geodetic Transformations, Tomás Soler and Larry D. Hothem, SU Nov. 89 p414-417.

Selection

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

Simulation

Contouring—Simulation of Cartographer's Procedure, B. Shmutter and Y. Doytsher, SU Nov. 90 p193-203.

Spatial data

Contouring—Simulation of Cartographer's Procedure, B. Shmutter and Y. Doytsher, SU Nov. 90 p193-203.

Standardization

Entity-Coded Neutral-File Format for Integrating Data Collectors, T. K. Koo and M. K. Lim, SU May 90 p93-103.

State agencies

Contractor Staking: Saving Public-Works Dollars, Thomas R. Warne, SU May 90 p82-92.

State laws

Orange County's Conversion to NAD 83, John Canas, SU Aug. 90 p155-162.

Statistical analysis

Reliability Analysis of Phase Observations in GPS Baseline Estimation, Z. F. Biacs, E. J. Krakiwsky and D. Lapucha, SU Nov. 90 p204-224.

Strategic planning

Professional Surveyor: View of Future, James P. Weidener, SU Feb. 90 p42-46.

Structural behavior

Study of Temperature Effect on Behavior of Structures, Bassam Saleh and Pierre A. Blum, SU Feb. 90 p1-12.

Subsidence

Monitoring Land Subsidence in Sacramento Valley, California, Using GPS, J. C. Blodgett, M. E. Ikehara and G. E. Williams, SU May 90 p112-130.

Surveying

Contractor Staking: Saving Public-Works Dollars, Thomas R. Warne, SU May 90 p82-92.

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

Draft Right-of-Way Guide, Task Committee on Right-of-Way of the American Society of Civil Engineers, SU Aug. 88 p131-142.

GPS As Fast Surveying Tool, J. David Newcomer, SU May 90 p75-81.

Kinematic Positioning—Efficient New Tool for Surveying, K. P. Schwarz, SU Nov. 90 p181-192.

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Modeling of Stadia Surveying with Incomplete Intercepts, Said M. Easa, SU Aug. 90 p139-148.

Monitoring Land Subsidence in Sacramento Valley, California, Using GPS, J. C. Blodgett, M. E. Ikehara and G. E. Williams, SU May 90 p112-130.

Orange County's Conversion to NAD 83, John Canas, SU Aug. 90 p155-162.

Private Utility Surveying Engineering: Total Station Experience, Nicholas B. Day, SU Aug. 90 p163-178.

Professional Surveyor: View of Future, James P. Weidener, SU Feb. 90 p42-46.

Reliability Analysis of Phase Observations in GPS Baseline Estimation, Z. F. Biacs, E. J. Krakiwsky and D. Lapucha, SU Nov. 90 p204-224.

Restrictions in Geodetic Networks, A. Grimm-Pitzinger, SU Aug. 90 p149-154.

Thriving on Change: Model for Success in the 1990s, Gene V. Roe, SU Feb. 90 p57-68.

Technology

Critical Aspects of Modern Surveying System, Joseph V. R. Paiva, SU Feb. 90 p47-56.

Trends in Geographic Information System Technology, John M. Smyrnew, SU May 90 p105-111.

Temperature effects

Study of Temperature Effect on Behavior of Structures, Bassam Saleh and Pierre A. Blum, SU Feb. 90 p1-12.

Transformations

Important Parameters Used in Geodetic Transformations, Tomás Soler and Larry D. Hothem, SU Nov. 89 p414-417.

Trends

Trends in Geographic Information System Technology, John M. Smyrnew, SU May 90 p105-111.

United States

Mapping in U.S. Foreign Assistance Program, Charles K. Paul, SU Feb. 90 p17-29.

Utilities

Digital Mapping for Utility Companies, John A. Thorpe, SU Feb. 90 p13-16.

Private Utility Surveying Engineering: Total Station Experience, Nicholas B. Day, SU Aug. 90 p163-178.

Workstations

Private Utility Surveying Engineering: Total Station Experience, Nicholas B. Day, SU Aug. 90 p163-178.
